Interpersonal Skills

Teamwork and Collaboration
Leadership
Communication
Problem Solving

Technical Skills

C/C++
Firmware
Python
MATLAB
SOLIDWORKS

Languages

English
Mandarin (Taiwan)

Education

University of British Columbia • Vancouver, BC, Canada • Bachelor of Applied Science (B.A.Sc.) in Engineering • September 2022 – Present

- GPA: 91.5% (18 credits)

Certifications

- Preventing and Addressing Workplace Bullying and Harassment
- General Audience Workplace Hazardous Materials Information System (WHMIS)
- Suicide Awareness and Intervention Training (SAIT)

Student Design Teams

Electrical Team Member • UBC Sailbot • September 2022 – Present

- Building a fully autonomous research vessel from scratch to collect oceanic and atmospheric data in extreme environments for marine researchers
- Worked under the communications project to research sensors and communication protocols for the vessel

Technical Projects

Autonomous Claw Project • University of British Columbia • January 2023 – February 2023

- Crafted an autonomous claw powered by an Arduino Uno to retrieve objects in extreme environments or remote locations

Cardboard Chair Project • University of British Columbia • September 2022 – October 2022

- Designed and built a family-friendly chair using a single piece of 50” x 50” cardboard for the use in evacuation centres

Exploring the Potentials of a Microcontroller • Westview Secondary • September 2021 – January 2022

- Explored the potential applications of a microcontroller using a Raspberry Pi Pico as a personal introduction to hardware computing

Awards

Outstanding International Student Scholarship • University of British Columbia • September 2022

International Student Ambassador Scholarship • British Columbia Council for International Education • June 2022

Top Academic Achieving International Graduating Student • School District 42 International Education • June 2022

Euclid School Champion • University of Waterloo • June 2022

First Place in the 13th National Senior High School Business Project Competition • Southern Taiwan University of Science and Technology • April 2020

Affiliations

- **Student Member** • Association of Professional Engineers and Geoscientists of British Columbia, Vancouver • January 2023 – Present
- **Mentee** • UBC Engineering Mentorship Program • October 2022 – Present

Volunteer Experience

UBC Engineering Open-house Presenter • University of British Columbia • November 2022
- Presented the projects that UBC Sailbot built to better engage the public with our work
- Described engineering and the student experience at UBC to prospective students to help them with their choices for post-secondary education
- Promoted STEM to the public to help people understand the significance and benefits

Clothing Collection and Donation • DoSomething.org • April 2021 – May 2021
- Collected a thousand pieces of unwanted clothing from the local community to help sustain the environment
- Donated the collected clothing to Big Brothers of Greater Vancouver to provide assistance to those in need

Participant in Write for Rights 2019 • Amnesty International • November 2019 – December 2019
- Wrote letters to leaders globally to pressure them to take actions on the humanitarian crisis in their countries

Extracurricular Activities

Advisory Panel • DGINTROMUN 2022 • July 2022
- Approved draft resolutions in the conference to assist the chairs conducting the conference
- Advised the committee on the rules of procedure to keep the conference flowing fluently

Multiple Delegations • Multiple Conferences • February 2019 – October 2020
- Attended various conferences addressing global issues through thinking creatively and critically
- Topics of issues included: humanitarian problems during wars, cybersecurity, gender equity, disarmament

Organizer, Academic Officer, Chair • Deguang Model United Nations XVII • January 2020 – June 2020
- Organized, recruited, and coordinated a team 20 people to host a successful Model United Nations event, while continuing to take on the responsibilities listed in Deguang Model United Nations XVI

Vice Academic Officer, Co-Chair • Deguang Model United Nations XVI • August 2019 – December 2019
- Taught delegates the rules of Model United Nations and how to write papers
- Chaired the committee with more than 50 countries represented and more than 100 participants present
